Friday March 23, 2018 - Jacksonville, FL - IMCO Associates, Inc. (d/b/a IMCO Software) has joined FloridaMakes Third Party Provider Network. This new relationship provides an opportunity for IMCO Software to work with FloridaMakes on specific projects to improve manufacturers' top and bottom line growth.

IMCO Software brings over 130 years of combined experience in supply chain and manufacturing management. Before founding IMCO Associates, Inc. and becoming its CEO, Ruben Mirensky held the position of Global Director of Supply Chain for two Fortune 100 companies. Since starting IMCO Associates, Inc., Mirensky has managed successful enterprise resource planning (ERP) implementation projects in the US and globally. His advice is sought by CEOs, CFOs and CIOs of major corporations around the world. Mirensky serves as a Vice President of the Jacksonville APICS chapter and is an FMA Software Advisory Council Member.

FloridaMakes partners with public and private service providers — including regional manufacturers associations, research and education institutions, consultants, and training providers — to improve the overall performance of individual firms, create and retain an advanced manufacturing workforce and

deliver measurable economic impact. The partnership between FCMA and FloridaMakes provides measurable value through services provided to manufacturers in the Northeast region of the State.

“For your company, that means FloridaMakes and IMCO Software can identify technology needs and trends, provide a step-by-step roadmap to help your company increase uptime, reduce scrap and rework, enhance up and down traceability, reduce working capital tied-up in inventory and improve on time and in full delivery,” said Ruben Mirensky, CEO, IMCO Software. “FloridaMakes can also help your company secure funding for training of personnel in these new technologies.”

Paula DeLuca, FloridaMakes Business Advisor said, “I am very pleased to welcome IMCO Software to our network. I believe manufacturers will see a great benefit by adding a Manufacturing Execution System (MES), or by enhancing the capabilities of their current ERP/MRP system.”

For more information about how this network alliance can help your business, please contact Paula DeLuca, FloridaMakes Business Advisor at 904-385-2123 or email at paula.deluca@floridamakes.com or Ruben Mirensky, CEO IMCO Software at 904-237-1003 or email at ruben.m@imcosoftware.com.

###

About IMCO Software:

IMCO was founded in 1999 by Ruben Mirensky to provide expert operational and software services to companies around the World. In October 2013, IMCO moved to its new headquarters located in a company-owned, secured facility shared with its sister company Kustura Technologies. In December 2016, IMCO signed a partnership agreement with ALPHA-3i, developer of the CIMAG suite of products, to introduce these state of the art software packages in the US. In addition to marketing the IMCO – CIMAG suite of products in the US, IMCO will provide Implementation and Post-Implementation support. For more information, please visit imcosoftware.com.

About First Coast Manufacturers Association (FCMA):

FCMA is a non-profit trade association with over 300 members. The mission of the FCMA has remained constant: to serve manufacturers. FCMA saves its members time and money through advocacy, networking and resources – providing workforce development training, fostering networking, and business relationships through committees and special events, and continuing to be a respected voice in local, state and federal government. For more information, please visit www.fcmaweb.com.

About FloridaMakes:

FloridaMakes is an industry-led public-private partnership established in 2015 to improve the productivity and technological performance of Florida manufacturers and strengthen the state’s high-wage manufacturing economy. FloridaMakes is the official representative of the MEP National Network and NIST MEP in the State of Florida and provides services through Florida’s existing network of Regional Manufacturers Associations and other partners to support Florida’s more than 20,000 manufacturers. Services are customized to meet the needs and opportunities of individual companies. FloridaMakes

operates with support from the State of Florida, NIST and Florida's manufacturers. For more information visit www.FloridaMakes.com.
