

## IMCO Software in Partnership with FloridaMakes announces MES Pilot Program to First Coast Manufacturers Association Members

Jacksonville, Florida – Monday July 31, 2018 - IMCO Software recently spoke during July's [First Coast Manufacturers Association](#) General Meeting at [Polyhistor International, Inc.](#) regarding the MES Pilot Program being offered in partnership with [FloridaMakes](#).

*Above: FCMA Member enjoys refreshments provided by IMCO Software at July's General Meeting*

Our Marketing team provided refreshments for fellow members in addition to describing the Value Proposition IMCO – CIMAG MES will bring fellow FCMA members.

*Above: Stacey Howell, Digital Marketing Manager with IMCO Software, highlights key functionalities of IMCO – CIMAG MES*

The members learned how the MES Pilot Program presents decision makers with an opportunity to reap the benefits of using IMCO - CIMAG MES with minimal risks.

**Benefits using IMCO – CIMAG MES include:**

- **Increased Uptime**
- **Real Time Visibility of the Shop Floor**
- **Reduce Scrap and Rework**
- **Up and Down Traceability**

IMCO Software enjoyed presenting and looks forward to working with manufacturing companies across the First Coast with its MES Pilot Program. If your company is looking to enhance overall shop floor control and would like to request a demo, [please click here](#).

If your company is an FCMA member and you would like more details about the MES Pilot Program please contact:
