

IMCO Software President and CEO Presented a Workshop on Industry 4.0 at FCMA

Jacksonville, Florida – Thursday, November 21st, 2019

IMCO Software President and CEO, Ruben Mirensky, presented a workshop to FCMA (First Coast Manufacturing Association) members on Industry 4.0.

The workshop went over how to use Industry 4.0 to manage today's shop floor, which included topics such as:

- Scheduling tools
- Paperless shop floor
- Real time quality control
- Real time traceability
- Real time OEE calculations

Our team provided refreshments for all attendees in addition to the workshop.

If you missed out on our workshop this year, don't worry! We are planning on having another workshop at FCMA next year, in 2020. To be notified of any events we may have, email ayla.g@imcosoftware.com to be added to our email newsletter!
