

Press Release

**NEW!!! – Introducing: Fishbowl Partnership and Integration  
IMCO – CIMAG MES**

**Media Contact:** Ayla Gwizdak – IMCO Associates, Inc. – Tel.: 904-855-8885 x108.

**Jacksonville, Florida – October 1<sup>st</sup>, 2020** – IMCO Associates, Inc. is pleased to announce a new partnership with Fishbowl.

For the last 20 years, IMCO Software – founded in 1999 and headquartered in Jacksonville, FL – has been developing, enhancing, and implementing software that makes Manufacturing and Distribution companies more efficient.

IMCO's flagship product, IMCO – CIMAG MES, is a Manufacturing Execution System that dramatically enhances Shop Floor Control. From Scheduling to Order Fulfillment, IMCO – CIMAG MES acquires data in real time directly from the source and uses that information to allow clients to manage their production, maintenance, and quality control activities.

The results speak for themselves; clients that have implemented IMCO – CIMAG MES have, on average, experienced:

- *A 16% reduction in the manufacturing cycle*
- *A 20% improvement in Planned vs. Emergency Maintenance*
- *A 27% increase in annual inventory turns*
- *A 10% Production Schedule attainment improvement, and a 13% decrease in rework and scrap*

IMCO Software has developed a full version of its MES software geared toward smaller manufacturers with up to 16 production machines. It is fully integrated with Fishbowl and priced affordably for smaller manufacturers.

If you are interested in participating in the Industry 4.0 revolution and competing with much larger players in the manufacturing and distribution space, read more on our website at [imcosoftware.com/features](http://imcosoftware.com/features)
